WORK EXPERIENCE

Research Assistant – Nuclear Operations and Facilities **May 2025-Aug 2025**
McMaster University, Hamilton, ON, Canada

- Assisted the Nuclear Operations and Facilities team at McMaster University with community outreach efforts related to research-based projects.
- Supported efforts to build meaningful and respectful relationships with Indigenous communities through outreach and engagement initiatives.

Fund Accountant Co-op Student **Jan 2024-Aug 2024**
CIBC Mellon, Toronto, ON, Canada

- Performed daily cash and asset reconciliation, developed pre-pricing reports to align fund expenses and income, and calculated daily net asset values (NAVS) for 6 ETF funds, ensuring accuracy and compliance.
- Gained proficiency in accounting software and Microsoft Excel to assist with data analysis and financial calculations.
- Managed pricing operations for 21 funds using accounting software and Microsoft Excel, delivering accurate data under strict deadlines.
- Enhanced workflow efficiency alongside other co-op students and the AVP by creating step-by-step guides and instruction manuals for new hires, improving onboarding processes.
- Strengthened collaborative and communicative skills by contributing to a team of 8, fostering a culture of idea-sharing and problem-solving.

Administration/Marketing Intern - Project Lead for Student Work Experience Campaign **May 2022-June 2022**
Jeddah Prep and Grammar School (JPGS), Jeddah, KSA

- Planned and supported the implementation of the 'Student Work Experience Campaign' for Year 10 pupils, connecting them with real-world industry experiences such as those of engineering, healthcare, and sales.
- Established basic proficiency in Microsoft Excel through the collection, organization, and analysis of data concerning organizational, student health, and post-work experience feedback.
